

Acton Congregational Church Sunday School Safe Church Policy

The Safe Church Committee and the Children's Christian Education Committee are committed to providing a safe environment for teachers, parents and children who participate in our Sunday School programs. These programs include the Nursery, Sunday School classes, vacation bible schools and any other CE sponsored event.

Sunday School teachers are required to read and complete a volunteer application and covenant form before the Sunday School year begins in September (Form is attached). Sunday School teachers, teenage volunteers and Superintendents will attend an Orientation in late August or early September at which time basic safety practices and safe church policies are reviewed. In addition, Teachers are asked to read and refer to a detailed description of Sunday School Safe Church Policies and Procedures found in their Teacher Notebook.

Parents should read and refer to the Sunday School Safe Church Policies and Procedures found in the Parent Booklet which is mailed to all families in late August of each year.
